

## Year-Round Irrigation Restrictions

# Do You Know Your Days?

Broward County's year-round water restrictions help to ensure we have the water we need today and in the future. And, when you save water, you save money and the environment.

### The following applies to established lawns and landscapes:

**Even-numbered addresses, rights-of-ways or locations without addresses, and those who irrigate both even and odd addresses within the same zones (which may include multi-family units and homeowners associations) may water:**

Thursday and/or Sunday, before 10 a.m. or after 4 p.m.

### **Odd-numbered street addresses may water:**

Wednesday and/or Saturday, before 10 a.m. or after 4 p.m.

For information about watering new lawns and landscapes, and other water uses, visit:
